

Corporate W20 windows and doors offer great versatility. No other steel window system offers such an extensive range of profiles affording the designer endless creative opportunities. Slim, strong framing allows for the creation of large expanses of glazing that maximise the benefits of natural daylight.

Features and Benefits

- Shaped windows and doors including arches, rakes and curves
- Fully welded, seamless frames
- Capable of forming large expanses of glazing
- Slim profiles maximise glass area
- Hot-dip galvanised. 60 year plus life expectancy
- In-house, factory applied Duralife® polyester powder coating
- Integrated, high-performance EPDM weatherseals
- Thermally efficient. Part L compliant
- Side, top and bottom hung, horizontal and vertical pivoting windows together with single and double leaf doors
- Hardware designed for heritage and contemporary projects

Quick View	
Material	Steel, hot rolled
Glass Thickness	16.4mm / 5/8" double glazing
Suitability	All market sectors & building styles
Finish	Full range of RAL/BS colours
Air Permeability	Up to 300 Pa/ 6.24 PSF
Water Tightness	Up to 300 Pa / 6.24 PSF
Wind Resistance	Up to 2000 Pa / 42 PSF
Quality Management	ISO 9001
Environmental Management	ISO 14001
